

Remote User Management Software

Acre's SPCS610 allows for the remote configuration of users, calendars, doors and profiles on acre intrusion Panels.

Key features

- Acre intrusion Communications
- Users be added to multiple panels
- Communication link monitoring
- Acre intrusion Panel control
- Acre intrusion Panel status information
- Operators
- Reporting on Acre intrusion panels and operators

Applications

- Secure user management
- Building managers
- Distributed systems

Operations

- Multi-panel remote operation
- Remote user management
- Remote data access management

Languages

- English
- German
- French

Features & Benefits

- **Multi-panel remote operation**

Acre intrusion Manager is a software-based user management tool, which allows you to manage, monitor and control system resources (for example, doors, areas and outputs) across multiple Acre intrusion systems in a quick and efficient way.

- **Remote user management**

Acre intrusion Manager supports the concept of global user data across a complete install base of acre intrusion systems, which allows central management of user information for a group of acre intrusion systems in an efficient way.

- **Multi-panel remote access data management**

Acre intrusion Manager allows you to remotely manage access data such as cards, calendars and access rights across multiple systems. Its powerful acre intrusion system user profiles provide an easy and quick way to create new users in a daily working environment.

Technical Data

System architecture

Acre intrusion Manager database	Microsoft SQL Server 2016, 2017, 2019 (with Business.dll 2.0.0.37)
Acre intrusion Manager server and client	Windows client/server application

System specification

Hardware (Client)	Pentium Dual-Core (E2160) 1MB Cache, 1.80 GHz 500GB HD available hard disk space 1024 x 768 or higher resolution display
Hardware (Server)	Intel Core i5-2400 CPU @ 3.1GHz 500GB HD available hard disk space 1024 x 768 or higher resolution display
Max. No. Connections	Basic License: 5 Standard License: 100 Advanced License: 1000
Max. No. of users in panel	Up to 2500 (depending on panel type)
Max. No. of users in acre intrusion Manager DB	10,000
Max. No. acre intrusion Manager clients	Basic License: 1 Standard License: 10 Advanced License: 50
Operatingsystem (Client)	Microsoft Windows 10 / Microsoft Windows Server 2019 Microsoft .NET Framework 4.0
Operating system (Server)	Microsoft Windows 10 / Microsoft Windows Server 2019 Microsoft .NET Framework 4.0 Microsoft SQL Server 2016,2017, 2019 (with Business.dll 2.0.0.37)
